

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol.

It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fever, for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send 50 one-cent stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Read Chapter VII on Circulatory Organs in the "Medical Advice"—A French cloth-bound book of 1008 pages sent on receipt of 31 one-cent stamps, address as above.

HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness.

If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

PROF. J. A. SHARON RESIGNS AS HEAD OF NEWPORT SCHOOLS

Prof. J. A. Sharon, formerly Superintendent of the Paris City Schools, tendered his resignation Wednesday as Superintendent of the Newport Public Schools, following the announcement by the Newport school commissioners that they had passed a resolution reducing his salary.

In speaking of his resignation Prof. Sharon said: "Under the present condition of the public schools of Newport, due to retrenchment in money matters, the superintendent will meet many obstacles. The question of a cut in salary, together with added burdens and responsibilities, made my action absolutely necessary. The position of second-class cities during the last three years has become much harder to fill from every standpoint. The additional responsibilities added to regular labors makes it out of the question for me to remain at a reduced salary."

Prof. Sharon held the position of instructor of mathematics at the Kentucky State University before going to Newport. He made an excellent record as head of the public schools bringing them up to a high standard of efficiency.

There was not the slightest disagreement between members of the board and Prof. Sharon, as the latter's work was entirely satisfactory. In the line of retrenchment the Superintendent's salary was reduced \$250. He had been receiving \$2,500.

WOMEN RIDING ASTRIDE NOT SO POPULAR NOW.

That riding astride by women is not popular in New York was fully demonstrated at the recent Garden show. Up to this time no opportunity had been given for testing the matter, as the donors of all special prizes stipulated that side saddles must be used. In arranging the program for this year, however, silver cups were offered for horses carrying 160 pounds "to be ridden by ladies on side-saddles or astride." There were twelve entries in this class and when they came into the ring all the riders but one were mounted on side-saddles. In several other classes young girls not over 14 years old appeared on cross saddles, but the number thus riding this year was no greater than it has ever been.

PARCELS POST BRINGS EGG OMELETTE TO CLERKS.

Someone in Sharpsburg didn't value their shipment of eggs, by Parcel Post, very much or they would have known better than to have packed them in bulk in a plain pasteboard box. When the mail arrived by stage from Sharpsburg the other day and was dumped out on the distributing tables a most amazing sight greeted the eyes of the mail clerks, for the box of eggs had been smashed and the hen fruit had mixed thoroughly with the letters and packages, many of which were in such a condition that they could not be forwarded to their destinations.

GET RID OF YOUR RHEUMATISM.

Now is the time to get rid of your rheumatism. You can do it if you apply Chamberlain's Liniment. W. A. Lockhard, Homer City, N. Y., writes, "Last spring I suffered from my arms and shoulders. I got a bottle of Chamberlain's Liniment and the first application relieved me. By using one bottle of it I was entirely cured." For sale by all dealers.

WOMEN'S CLUBS PUTS BAN ON SEX NOVELTIES.

Delegates to the biennial meeting of Women's Clubs, at Chicago, led by Miss Lottie B. Stearns, of Madison, Wis., have started a movement to put the "sex novel" out of literary commission. Miss Stearns is a member of the Wisconsin State Library Board and acted as chairman of a conference at Chicago on literary extension.

It is proposed, as one blow to books dealing frankly with plots involving sex problems, to boycott them at all branches, and as another that members of women's clubs pledge themselves not to buy, read or permit their sons or daughters to read such books.

"A wise librarian," said Miss Stearns, "never puts a book on his shelves unless it answers affirmatively on these questions—will it inform, will it inspire, will it refresh?"

"The province of the novel is to refresh and sometimes to inspire. The greatest problem which librarians have to meet is the enormous output of books. With some publishers it has struck 'Six O'clock,' and librarians have a hard time, knowing the titles and authors only, to discriminate concerning that sort of thing."

ONLY ONE ENTIRELY SATISFACTORY.

"I have tried various colic and diarrhoea remedies but the only one that has given me entire satisfaction and cured me when I was afflicted is Chamberlain's Colic, Cholera and Diarrhoea Remedy. I recommend it to my friends at all times," writes S. N. Galloway, Stewart, S. C. For sale by all dealers.

8,000-FOOT TUNNEL LAPS RICH COAL REGION.

Sandy Ridge, the last great barrier on the Clinchfield, Carolina and Ohio Railroad between Elkhorn City and Danta, Va.,—through the "Brakes"—has just been pierced by a tunnel more than 8,000 feet long. Work was begun simultaneously on both sides two and a half years ago, and has been continuously pushed. Track laying on the extension will be resumed and completed within a few days, forming what is possibly the most important northwestern and southeastern connection of railroad lines in the territory. The coal fields of Eastern Kentucky will be given a South Atlantic connection—which has long been wanted—by the completion of this extension. The great coal fields of Eastern Kentucky, especially the region of the Lower Elkhorn, will be opened up.

WELL, WELL, HERE'S "OLD TERRAPIN" AGAIN.

"Mr. Vernon Hisle, who possesses a very unusual keenness of the eye, found a diamond-back terrapin near the sulphur well on the Ecton pike, on the farm of Speed Stevenson, and on its breast, bone was carved, in plain figures, 1897, and the initials E. G. It is the opinion that the initials are those of Mr. Ernest Gordon, who formerly resided in the West. The terrapin was about six inches in diameter and no doubt has reached the limit of his growth. Seventeen years has passed since the date was carved on the crawler, and no telling how old it was when this was done, as it is claimed they live to be over a hundred years old."—[Winchester Democrat.]
